

Von Carlo Ojastro

Full Stack Developer

I am an Industrial Design Graduate with a strong interest in coding, particularly in the field of Full Stack Web Development. Combining my design background with technical skills, I create innovative solutions to enhance user experiences and drive business growth. With nearly 3 years of web development experience, I specialize in building responsive, user-friendly websites.

Experience

2018 - 2019

Amigo Entertainment Technologies Inc

Graphic Designer

As a Graphic Designer at Amigo Entertainment, I specialized in Facade Lighting Design for architectural structures in Video Animation. I utilized SketchUp and AutoCAD for 3D modeling, creating visually stunning and accurate designs. With Lumion rendering, I enhanced the animations with realistic lighting effects. My expertise in these tools and keen eye for design contributed to captivating and immersive visual experiences.

2021

Crescendo Collective

QA Tester / Magnolia CMS Developer

At Crescendo Collective, I worked on diverse projects. Initially, I tested a replicated website using Magnolia CMS, ensuring optimal functionality and user experience. As my proficiency grew, I transitioned to developing dynamic and responsive websites within Magnolia CMS. This experience equipped me with expertise in Magnolia CMS, quality testing, web development, and UI design, highlighting my versatility in the field.

2022 - Present

Tagpros

Software Engineer I (Part-time)

As a Full Stack Developer at TagPros, I contribute to the development of various features for our LMS platform. Working in an agile Scrum environment, I collaborate closely with the team to ensure efficient project management and timely delivery. Leveraging my expertise in React.js (Next.js), TypeScript, MongoDB, PostgreSQL, and React Bootstrap. With responsibilities spanning both front-end and back-end development, I have gained valuable experience in building robust LMS platforms while honing my Full Stack Developer skills.
